

Division : Textile Products

Sub Division : Raw Cotton, Fabric and Cotton Yarn

Sr. No.	Description	Photograph
1	Raw Cotton: High-grade raw cotton from India's top regions like Gujarat, Maharashtra, and Andhra Pradesh. Varieties include Shankar-6, MCU-5, and organic cotton, known for superior staple length and strength. Ideal for spinning mills, textile manufacturers, and cotton processing industries.	
2	Blended Yarn: Cotton-polyester, cotton-viscose blends for enhanced strength and versatility.	
3	Knitted Fabrics: Single jersey, interlock, rib, and fleece for apparel and sportswear.	
4	Woven Fabrics: Cotton poplin, twill, denim, shirting, and home textile fabrics like bed sheets and upholstery.	
5	Carded Yarn: Cost-effective yarn for durable fabrics like denim and towels.	

6	Melange Yarn: Two-tone or multi-colored yarn for stylish apparel and home textiles.	
7	Recycled Yarn: Eco-friendly yarns made from recycled cotton, polyester, and textile waste, reducing environmental impact. Available in various counts and blends, ideal for sustainable fashion, home textiles, and circular economy initiatives.	
8	Combed Yarn: Smooth, high-quality yarn for fine fabrics, apparel, and premium textiles.	
9	Open-End Yarn: Economical yarn for coarser fabrics, home textiles, and industrial use.	
10	Slub Yarn: Textured yarn for unique, decorative fabrics in fashion and upholstery.	
11	Compact Yarn: High-strength, low-hairiness yarn for premium weaving and knitting applications.	

12	Organic and BCI Yarn: Sustainable, eco-friendly cotton yarn certified by GOTS and Better Cotton Initiative (BCI) for ethical fashion.	
13	Specialty Fabrics: Organic, blended (cotton-polyester, cotton-viscose), and sustainable fabrics for eco-conscious brands.
